

How to Register a New Camper for Quest Camp as an ESY Placement

Are you a parent who is looking for a fun, safe and therapeutic environment for your child to continue their IEP over the summer break? Does Quest's system of integrating group therapy with fun physical activities and field trips to help campers properly socialize and assimilate with peers sound like a perfect fit? Then check us out! Here's a little help with how the process goes if your child is coming as an ESY placement:

Talk to the point person at your child's school about Quest.

Get approval from the school. It is important to remember to ask how many weeks your child has been approved for.
***There is a minimum of 3 consecutive weeks.**

Reach out to the Quest Camp Director April Artz at connectioncounselinginc@gmail.com to schedule an hour long screening to take place at April's office with the child and their caregiver.

***There is a screening fee.**

If Quest is a fit for your child and vice versa, you will obtain an ESY code at the screening.

Register

Parents/caregivers can then register their child for camp on-line using the ESY code on the Quest website at <http://questcamps.com/>.

***If you do not frequently use email, you will reach April at 412-877-7528. However, initial contact via email is preferred.**
